**11th-12th Grade: 51**

# At my school, I/my classmates have a teacher or other trusted adult that we can talk to if something is bothering us.

# How strongly do you feel connected to your school community?

- Not at all- If I left, nobody would even notice.
- Not very- I don't feel very connected.
- Somewhat Connected- Sometimes I feel connected; other times, I don't.
- Connected- I feel connected to my school/classmates.
- Highly Connected- I feel deeply connected to my school/classmates.

# How often would you say that fears, worries, or sadness make it hard to concentrate on your learning/school work?

# If/when you feel regularly sad, down, distracted, or unable to concentrate at school, the reason(s) is/are usually because (Please check all that apply)

**Imagine that you were allowed to be in charge of decision-making at your school. What would be THE MOST IMPORTANT changes you would make to improve student wellness? (Please select your top 3).**

# What are the strengths in your school/your community that promote student wellness that people often miss/don't see? (Please list all that apply).
