9th-10th Grade: 63

11th-12th Grade: 5

At my school, I/my classmates have a teacher or other trusted adult that we can talk to if something is bothering us.

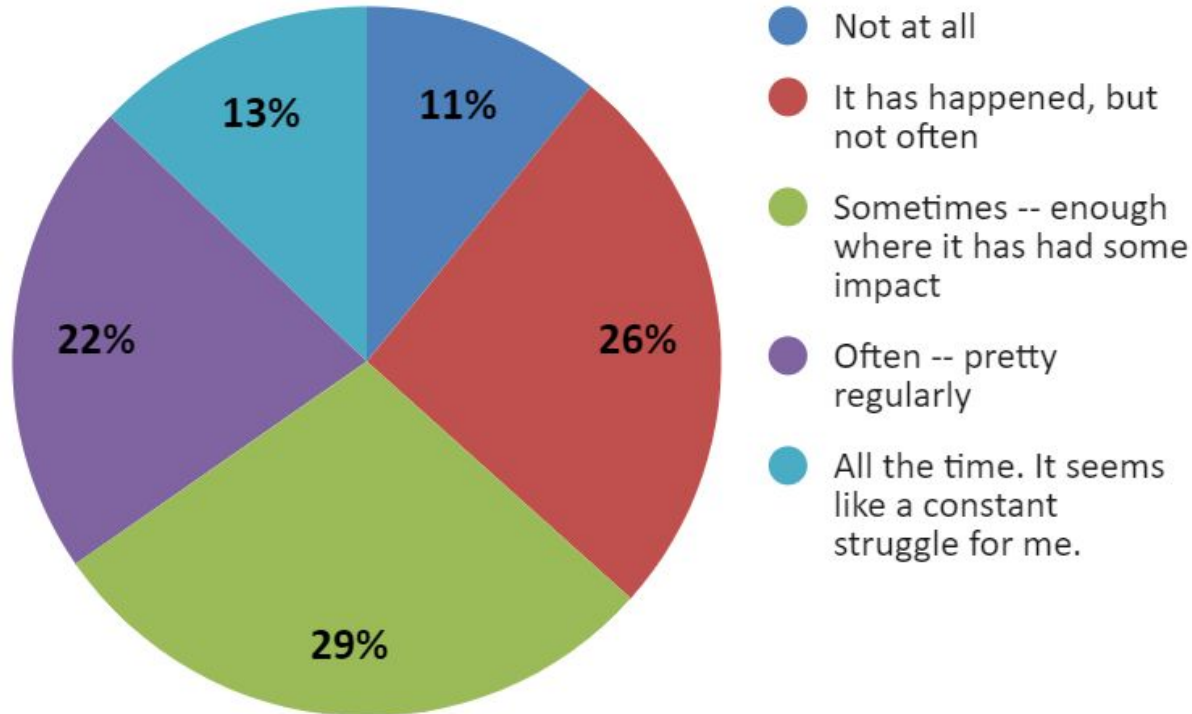

- Strongly Disagree- There is no adult at my school that I feel comfortable talking to.
- Disagree- This is generally not true for me or most students at my school.
- Agree- Some students at my school have a trusted adult that they can talk to.
- Strongly Agree- Absolutely. I believe this is a particular strength at my school.

How strongly do you feel connected to your school community?

- Not at all- If I left, nobody would even notice.
- Not very- I don't feel very connected.
- Somewhat Connected- Sometimes I feel connected; other times, I don't.
- Connected- I feel connected to my school/classmates.
- Highly Connected- I feel deeply connected to my school/classmates.

How often would you say that fears, worries, or sadness make it hard to concentrate on your learning/school work?

If/when you feel regularly sad, down, distracted, or unable to concentrate at school, the reason(s) is/are usually because (Please check all that apply)

Imagine that you were allowed to be in charge of decision-making at your school. What would be THE MOST IMPORTANT changes you would make to improve student wellness? (Please select your top 3).

What are the strengths in your school/your community that promote student wellness that people often miss/don't see? (Please list all that apply).
